Budgeted Amount: **Rs 1000/-**	Total expenditure: **Rs 1000/-**	Balance: **Rs 0/-**

Brief Report

As part of its commitment to promote environmental awareness and sustainability, the Bhoomithrasena Club organized an insightful awareness session titled *"Echoes of Nature"* at the picturesque Aruvikkachal Waterfalls on 15th October 2024. The program was led by renowned environmental activist Shri. Abey Emmanuel Poondikulam, who engaged the students in an interactive and thought-provoking session on the importance of ecosystem preservation and responsible environmental behavior.

The natural setting of the Aruvikkachal Waterfalls provided an ideal backdrop to experience the harmony and fragility of nature. Students had the opportunity to explore the surroundings while learning about key environmental issues such as pollution, deforestation, and the importance of biodiversity. Shri. Abey Poondikulam emphasized the role of youth in shaping a sustainable future and shared practical ways students can contribute to conservation efforts in their daily lives.

Teachers from the institution also played a leading role in coordinating and guiding the students throughout the program. Their active involvement ensured a smooth and impactful learning experience, helping bridge the gap between environmental education and action.

The session was not only educational but also deeply inspiring. It helped students connect emotionally with nature, understand the urgency of environmental challenges, and recognize the impact of individual and collective action. Through this field-based learning experience, participants were encouraged to become ambassadors of nature, committed to protecting the environment and promoting sustainability in their communities.

This program successfully combined awareness with action, leaving a lasting impression on the participants and reinforcing the values of environmental stewardship and ecological responsibility

Expenditure Statement
